PRODUCT OVERVIEW

Pine Timber Supply

Pine sawn timber sourced directly from the Gomel region of Belarus and prepared for international commercial supply.

The standard supply length is 4,000 mm. Alternative lengths, widths and thicknesses can be prepared according to customer requirements, subject to production and logistics feasibility.

Grade 1–2 material (supplier classification) is available, with optional kiln drying to meet agreed moisture requirements.

SPRUCE MAY ALSO BE AVAILABLE IN LIMITED QUANTITIES. PINE IS THE MAIN SUPPLY.
